## Summaries

### Description Summary

Criteria	Title	Description	
§170.315(f)(1)	Transitions to Immunization Registries	(i)	Create Immunization record using CVX and NDC data for vaccines that are administered.
		(ii)	Transmit the immunization record.

### Justification Summary

Although California Medical Systems has clients all over the United States, the bulk of our clients are in California and submit Immunizations to the CAIR Registry. We have noticed a great deal more activity in regards to submitting immunization data over the last year and a half. We will review the database for the clients that we onboard to real world test this measure to make sure that the correct data is being sent and received by CAIR.

### Expected Outcomes Summary

The Real World Testing will show that Practice Expert conforms to the following certification criteria: § 170.315(f)(1) Transmission to Immunization Registries.

## **REAL WORLD TESTING PLAN TWO**

CRITERIA	METRIC	METHOD	JUSTIFICATION	EXPECTED OUTCOME
170.315(f)(1) Transitions to Immunization Registries	Demonstration of the generation of a VXU message for an administered vaccine/immunization and transmission, via HL7 format, to a public health agency successfully.	The success/failure and frequency of messages being sent to CAIR will be documented.	Illustration of the ability to create and submit vaccine/immunization data to a public health registry, in this case CAIR.	Documentation confirming the creation of a VXU message with immunization information as well as the successful transmission to CAIR, the California public immunization registry.
