Plan Report ID Number: Calmed_RWT_2024_2

Developer Name: California Medical Systems

Product Name(s): Practice Expert

Version Number(s): 2018

Certified Health IT Product List (CHPL) ID(s): 15.04.04.1190.Prac.18.00.1.181222

Developer Real World Testing Page URL: cal-med.com/onc.html

JUSTIFICATION FOR REAL WORLD TESTING APPROACH

California Medical System's Practice Expert v. 2018 is marketed for small to medium sized practices. The Real World Testing will focus on scenarios that occur in small to medium sized practices, encompassing single and multiple provider offices. All modules and criteria that share the purpose of Immunization Sharing will be tested. Those criteria include: § 170.315(f)(1) Transmission to Immunization Registries.

Method used for standard update: N/A

Date of ONC ACB notification: N/A

Date of customer notification (SVAP only): N/A

Conformance measure: N/A

USCDI updated certification criteria (and USCDI version): N/A

Summaries

Description Summary

Criteria	Title	Description	
§170.315(f)(1)	Transitions to Immunization Registries	(i)	Create Immunization record using CVX and NDC data for vaccines that are administered.
		(ii)	Transmit the immunization record.

Justification Summary

Although California Medical Systems has clients all over the United States, the bulk of our clients are in California and submit Immunizations to the CAIR Registry. We have noticed a great deal more activity in regards to submitting immunization data over the last year and a half. We will review the database for the clients that we onboard to real world test this measure to make sure that the correct data is being sent and received by CAIR.

Expected Outcomes Summary

The Real World Testing will show that Practice Expert conforms to the following certification criteria: § 170.315(f)(1) Transmission to Immunization Registries.

REAL WORLD TESTING PLAN TWO

CRITERIA	METRIC	METHOD	JUSTIFICATION	EXPECTED OUTCOME
170.315(f)(1) Transitions to Immunization Registries	Demonstration of the generation of a VXU message for an administered vaccine/immunization and transmission, via HL7 format, to a public health agency successfully.	The success/failure and frequency of messages being sent to CAIR will be documented.	Illustration of the ability to create and submit vaccine/immunization data to a public health registry, in this case CAIR.	Documentation confirming the creation of a VXU message with immunization information as well as the successful transmission to CAIR, the California public immunization registry.

Care Settings

California Medical Systems markets to small and medium sized clinics, solely for ambulatory care.

Relied Upon Software

California Medical System's Practice Expert v. 2018 does not require any additional software for the criteria in Real World Testing Plan Two.
